

## AGRICULTURAL PROTECTION YOU CAN COUNT ON FROST PROTECTION\*\*PEST PROTECTION

Atmore Industries goal and commitment is to provide GROWERS with protective covers specifically for agricultural use to enhance earlier, higher yields and protection against winter weather, spring freezes, and pests.

### GRO-GUARD PROVIDES

- ➔Early planting and Earlier Harvest
- ➔Improved Plant Growth and Higher Yields
- ➔Frost and Cold Weather Protection
- ➔Heavy Rain, Hail and Storm Protection
- ➔Insect, Animal, and Bird Protection

### THE GRO-GUARD ADVANTAGE

*Gro-Guard is UV stabilized to promote reuse.  
It is easily laid manually or mechanically.*

*Gro-Guard is made to order in widths up to 50 feet and folding is available on most products to enable UPS deliveries.*

*Gro-Guard increases soil and air temperature during daylight hours, and at night Gro-Guard slows heat loss and aids in maintaining soil temperatures*

**PRODUCT AVAILABLE IN 6 UNIQUE WEIGHTS PROVIDING PROPER  
USE FOR ALL APPLICATIONS AND CLIMATES**

APPLICATION

## PRODUCT DETAILS AND SPECIFICATIONS

Atmore Industries is proud to offer 6 unique ounce weights of their Gro-Guard Fabric ensuring that no matter what application you are looking for, or what climate you are operating in, there will be a Gro-Guard solution for you.

### GG-17

Light weight frost protection  
 17 gsm / 0.5 oz sq. yd  
 Protects down to 28 degrees F  
 Increases daytime soil and air temperature  
 Obtains earlier, higher yields

### GG-20

Light weight frost protection  
 20 gsm / 0.6 oz sq. yd.  
 Protects down to 27 degrees F  
 Lowers moisture loss  
 Promotes better growing conditions in early spring

### GG-34

Medium weight frost protection  
 34 gsm / 1.0 oz sq. yd.  
 Protects down to 24 degrees F  
 Reduces winter kill form desiccation  
 Porous to air and water, transmits 70% light  
 Moderate freeze protection

### GG-40

Medium weight frost protection  
 40 gsm / 1.2 oz sq. yd.  
 Protects down to 22 degrees F  
 Intermediate weight  
 Porous to air and water, transmits 60% light  
 Added freeze protection

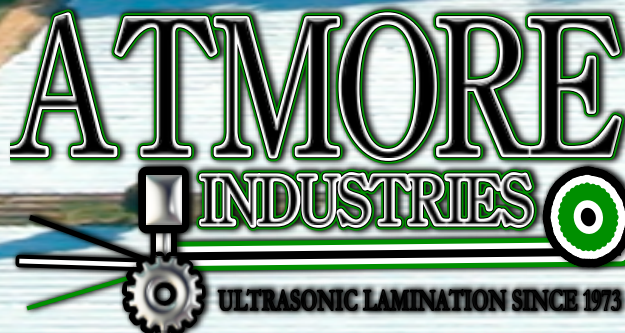

### GG-51

Heavy weight frost protection  
 51 gsm / 1.5 oz sq. yd.  
 Protects down to 20 degrees F  
 Porous to air and water, transmits 50% light  
 Strong and durable for repeated use  
 Heavier freeze protection

### GG-60

Heavy weight frost protection  
 60 gsm / 1.8 oz sq. yd.  
 Protects down to 18 degrees F  
 Porous to air and water, transmits 40% light  
 Maximum strength and durability  
 Maximum freeze protection
